Direct and continuous
generation of pure acetic acid
solutions via ...

A solution to continuously obtain a highly pure, single C 2+ product stream, which can be directly fed into practical applications, will impose a significant scientific and economic impact but has been rarely studied before. Ethylene, ethanol, and acetate are the three major C 2 products that have been widely reported in CO 2RR/CORR on Cu materials (16 -18, 38 44). Compared to gas-phase ...
