Intermediate Accounting IFRS Donald E. Kieso 2020-07-08 Essential knowledge of International Financial Reporting Standards for students of global accounting This important work provides the tools global accounting students need to understand international financial reporting standards (IFRS) and how they are applied in practice. This text emphasizes fair value, proper accounting for financial instruments, and new developments in international accounting. By presenting IFRS in light of current accounting practice, this book helps students gain practical knowledge of the topic that they can apply as they advance into their global accounting careers. With this revised and updated Fourth Edition, students will develop a firm conceptual understanding of IFRS, as well as the ability to integrate their learning through practical exercises. Throughout this text, Global Accounting Insights highlight the important differences that remain between IFRS and U.S. GAAP, discussing the ongoing joint convergence efforts to resolve them. Comprehensive, up-to-date, and accurate, Intermediate Accounting IFRS includes proven pedagogical tools designed to help students learn more effectively. Comprehensively covers the latest International Financial Reporting Standards and how they are applied in practice Takes a comparative approach to help students understand the differences between IFRS, U.S. GAAP, and other important standards Emphasizes practical application of knowledge with end-of-chapter Review and Practice sections Provides authoritative references and citations to ensure content reliability and provide opportunities for further study Includes access to video walkthroughs, interactive content, and digital resources to support student engagement and ensure positive learning outcomes As IFRS gains broad acceptance around the world, students of global accounting will need to be intimately familiar with these standards, and prepared to keep up with the rapid changes in the international environment.

Intermediate Accounting IFRS answers to these pressing needs, making it the clear choice for accounting courses at the intermediate level.

Intermediate Accounting Kin Lo 2016-01-01 Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Data Mining: Concepts and Techniques Jiawei Han 2011-06-09 Data Mining: Concepts and Techniques provides the concepts and techniques in processing gathered data or information, which will be used in various applications. Specifically, it explains data mining and the tools used in discovering knowledge from the collected data. This book is referred as the knowledge discovery from data (KDD). It focuses on the feasibility, usefulness, effectiveness, and scalability of techniques of large data sets. After describing data mining, this edition explains the methods of knowing, preprocessing, processing, and warehousing data. It then presents information about data warehouses, online analytical processing (OLAP), and data cube technology. Then, the methods involved in mining frequent patterns, associations, and correlations for large data sets are described. The book details the methods for data classification and introduces the concepts and methods for data clustering. The remaining chapters discuss the outlier detection and the trends, applications, and research frontiers in data mining. This book is intended for Computer Science students, application developers, business professionals, and researchers who seek information on data mining. Presents dozens of algorithms and implementation examples, all in pseudo-code and suitable for use in real-world, large-scale data mining projects Addresses advanced topics such as mining object-relational databases, spatial databases, multimedia databases, time-series databases, text databases, the World Wide Web, and applications in several fields Provides a comprehensive, practical look at the concepts and techniques you need to get the most out of your data

Financial Accounting, Reporting, and Analysis Jennifer Maynard 2017-05-11 Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all

the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions
