Serial Killer Investigations Colin Wilson 2006-07-02 In this fascinating, in-depth account of the hunt for serial killers, Colin Wilson, one of the world's leading authorities on the subject, examines the ways they can be tracked down and caught, from the tried-and-true methods of the early 20th century to the high-tech processes in use today. Wilson examines such areas as psychological profiling, genetic fingerprinting, and the

launch of the Behavioural Science Unit. He delves into the importance of fantasy to serial killers, the urge to keep on killing, the desire to become notorious, and murder as an addictive drug. He includes his own correspondence with serial killers and follows the career of FBI Special Agent Robert Ressler, the man who coined the term 'serial killer' in 1977. Including the worst murderers in Britain and America such as Peter Sutcliffe, Fred and Rosemary West, Jeffrey Dahmer and Paul Bernardo, this book is an essential read for true crime enthusiasts. It is for all of us morbidly fascinated by these gruesome murders but especially by the techniques used to bring those responsible to justice.

SOP 12-1 Reporting Pursuant to the Global Investment Performance Standards AICPA 2017-05-15

Supersedes SOP 06-1, Reporting Pursuant to the Global Investment Performance Standards This Statement of Position (SOP) has been issued to guide practitioners with engagements to examine and report on aspects of an investment firm's compliance with the Global Investment Performance Standards (GIPS® standards). In

addition, this SOP provides guidance on engagements to examine and report on the performance results of specific composites in conformity with applicable guidance. and greater comparability in performance presentations, CFA Institute created the GIPS standards. Many investment firms' claim of compliance with these standards has been regarded as providing a competitive advantage. This SOP updates SOP 06-1, Reporting Pursuant to the Global Investment Performance Standards, for the most recent changes to the GIPS standards.
