Shibari Seito Saiki 2018-01-10 Welcome to the beginners guide to Shibari. In this book you will learn about what it takes to safely and confidently perform the Japanese art of Shibari otherwise known as bondage. The secret here is that not all bondage is sexual in nature. While it is obviously associated with that as well, it is also independently considered an art form and is practiced by very serious artists. The main difference is being in the word chosen to describe it. The word Shibari in Japanese is specific to the act of tying, or binding. Whereas Kinbaku is the more sexual side of it, the word associated the BDSM and sex games side of things. If you are referring to a beautiful artistic display that, while erotic, is limited to an artist's interpretation and not a sex act then you would be speaking of Shibari. Here is a preview of what you'll learn: - What is Shibari? - Materials for the Japanese art of Shibari - Knotting and Tying - The knot tying of hands "stirrup" - The tying of hands "stirrup" (another variation) - The wrist knot "chain" - The knotting under arm "rat-tail stopper" - Connecting neck with both arms "common whipping" - Leg bind "round lashing" - Hip tie "square lashing" - Ankle's tying - Chest knots - Chest bind "figure 8 knot" - Chest bind "figure 8 knot" with hands - Advanced Knotting & Tying - The rope tying of hands, shoulders and legs - Double loops to tie mid arm mark "bowline" - The tying "fisherman's knot" - Sturdy knot of body "overhand bow" - The tying neck & back "common cross whipping" - The tying "cow hitch" - "Constrictor knot" - Humble coin knot "double overhand" - The tying "ashley stopper knot" - Difficult tying of waist, legs and head - The knotting rope

Movies (And Other Things) Shea Serrano 2019-10-08 INSTANT #1 NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER BARNES & NOBLE BESTSELLER AMAZON BESTSELLER "Paging through Serrano's Movies (and Other Things) is like taking a long drive at night with a friend; there's that warmth and familiarity where the chat is more important than the fastest route from Point A to Point B...It's like a textbook gone right; your attention couldn't wander if it tried." -- Elisabeth Egan, New York Times Book Review Shea Serrano is back, and his new book, Movies (And Other Things), combines the fury of a John Wick shootout, the sly brilliance of Regina George holding court at a cafeteria table, and the sheer power of a Denzel monologue, all into one. Movies (And Other Things) is a book about, quite frankly, movies (and other things). One of the chapters, for example, answers which race Kevin Costner was able to white savior the best, because did you know that the white saviors Mexicans in McFarland, USA, and white saviors Native Americans in Dances with Wolves, and white saviors Black people in Black or White, and white saviors the Cleveland Browns in Draft Day? Another of the chapters, for a second example, answers what other high school movie characters would be in Regina George's circle of friends if we opened up the Mean Girls universe to include other movies (Johnny Lawrence is temporarily in, Claire from The Breakfast Club is in, Ferris Bueller is out, Isis from Bring It On is out...). Another of the chapters, for a third example, creates a special version of the Academy Awards specifically for rom-coms, the most underrated movie genre of all. And another of the chapters, for a final example, is actually a triple chapter that serves as an NBA-style draft of the very best and most memorable moments in gangster movies. Many, many things happen in Movies (And Other Things), some of which funny, others of which are sad, a few of which are insightful, and all of which are handled with the type of care and dedication to the smallest details and pockets of pop culture that only a book by Shea Serrano can provide.

The Standard Book of Noun-verb Exhibition Grammar Niekolaas Johannes Lekkerkerk 2018-03-25 The Standard Book of Noun-Verb Exhibition Grammar is a partial compendium of the different modes of being that inhabit exhibitions. These different modes of being, often placed outside the realm of art objects proper, are described and activated here as crucial players in the world of contemporary art. Maximizing a poetic resonancefulness, this book proposes the exhibition as an ecology full of things that are infinitely more dimensional than their ascribed functionality would lead us to believe, and creates a space where species meet, where ontological and epistemological registers clash, overlap, and contaminate each other, where the living and inert, organic and inorganic exchange properties, qualities, and performances. Ultimately this book aims to show that what revolves around, within, and beyond any given system resolves to be just as serious and important as what that system aims to convey. The exhibition and catalog are curated by The Office for Curating, a generic name for a curatorial practice and an agency, established in 2012 by niekolaas Johannes Lekkerkerk, working in Rotterdam.
