Introduction to Financial

Accounting Henry Dauderis

2019 This textbook, originally by

D. Annand and H. Dauderis,

was intended for a first course

in introductory financial

accounting. It focuses on core

introductory financial accounting

topics that match pre-requisite

requirements for students

advancing to Intermediate

Financial Accounting. A

corporate approach is utilized

versus beginning with a sole

proprietorship emphasis and

then converting to a corporate

approach; this consistency

throughout the book reduces

confusion for the introductory

student. This most recent

revision by D. Marchand
