War and Peace Leo Tolstoy 2019-01-16 Hailed as one of the greatest novels of all time and a classic of world literature, War and Peace is a tale of strivers in a world fraught with conflict, social and political change, and spiritual confusion, Tolstoy's magnificent work continues to entertain, enlighten, and inspire readers around the world. Both an intimate study of individual passions and an epic history of Russia and its people, 'War and Peace' is nothing more or less than a complete portrait of human existence. Among its many unforgettable characters is Prince Andrey Bolkonsky, a proud, dashing man who, despising the artifice of high society, joins the army to achieve glory. Badly wounded at Austerlitz, he begins to discover the emptiness of everything to which he has devoted himself. His death

scene is considered one of the greatest passages in Russian literature. Terror swiftly engulfs the country as Napoleon's army marches on Russia, and the lives of three young people are changed forever. The stories of quixotic Pierre, cynical Andrey and impetuous Natasha interweave with a huge cast, from aristocrats and peasants, to soldiers and Napoleon himself. In War and Peace (1868-9), Tolstoy entwines grand themes—conflict and love, birth and death, free will and fate.

The Return of the Soldier Rebecca West 101-01-01 "Come here, Jenny. I'm going to dry my hair." And when I looked again I saw that her golden hair was all about her shoulders and that she wore over her frock a little silken jacket trimmed with rosebuds. She looked so like a girl on a magazine cover that one expected to find a large "15 cents" somewhere attached to her person. She had taken Nanny's big basket-chair from its place by the high-chair, and was pushing it over to the middle window. "I always come in here when Emery has washed my hair. It's the sunniest room in the house. I wish Chris wouldn't have it kept as a nursery when there's no chance—" She sat down, swept her hair over the back of the chair into the sunlight, and held out to me her tortoiseshell hair-brush. "Give it a brush now and then, like a good soul; but be careful. Tortoise snaps so!"

For fifteen months, Pulitzer Prize-winning reporter David Finkel was with them, following them almost every grueling step of the way. The resulting account of that time, *The Good Soldiers*, is a searing, shattering portrait of the face of modern war. In telling the story of these soldiers, both the heroes and the ruined, David Finkel has also written a classic work of war reporting.

The History of Tom Jones Henry Fielding 1780

The Cromwellian Settlement of Ireland John P.

Prendergast 2014 The legacy of Oliver Cromwell is still haunts the Irish imagination. His alleged directive to the Catholic Irish to get "to Hell or Connaught," and the policy that drove it, permanently altered the ownership of Irish soil. The Parliamentary forces' civil war against Charles I were enmeshed in a ruthless campaign against popery and the Catholic perpetrators of the assault on the Protestant colonists of 1641. The legacy of sectarianism has marred Irish politics to this day. Prendergast's research reveals his keen eye for

evidence. His dismissal of the colonists' claims about the nature of the uprising of 1641 and his attitudes to race are contested, but he was a man of his times. More significantly his prejudices did not blind him and he lets his sources speak for themselves, while his analytical mind identifies the underlying economic motivation and forces behind the apparently civilising religious mission driving the settlement.

Merchant, Soldier, Sage David Priestland 2012-08-30 From historian David Priestland, Merchant, Soldier, Sage is a remarkable book that proposes a radical new approach to

how we see our world, and who runs it, in the vein of Francis Fukuyama's *The End of History* We live in an age ruled by merchants. Competition, flexibility and profit are still the common currency, even at a time when Western countries have been driven off a cliff by these very values. But will it always be this way? David Priestland argues for the predominance in any society of one of three broad value systems - that of the merchant (commercial and competitive); the soldier (aristocratic and militaristic); and the sage (bureaucratic or creative). These 'castes' struggle alongside the worker (egalitarian and artisanal) for power, and when they achieve supremacy, they can have such a strong hold over us that it is almost impossible to imagine life outside their grip. And yet there does come a point of drastic change, usually because one caste becomes too dominant. The result is economic crisis, war or revolution, and eventually a new caste takes over. Priestland argues, we are now in the midst of a period with all the classic signs of imminent change. As the history of the last century shows, there is good reason to be fearful of the forces that this failure may unleash. Merchant, Soldier, Sage is both a masterful dissection of our current predicament and a brilliant piece of history. The world will not look the same again. Reviews: 'We have here a gripping, argument-led history, effortlessly moving between New York, Tokyo and Berlin, from the Reformation to the 2008 economic crisis ... dazzling ... here, at last, is a work that places the current crisis in a longer history of seismic shifts in the balance of social power' Frank Trentman, BBC History Magazine 'Concise but extremely ambitious ... well worth pondering and reflecting on ... among the many contributions to the dissection of our current

predicament, this is surely one of the most thought-provoking' Sir Richard J Evans, Guardian 'Stimulating ... In illustrating these larger processes of caste conflict and caste collaboration, the author offers crisp portraits of entrepreneurs, economists and warriors ... Sparkling prose and ... arresting comparisons' Ramachandra Guha, Financial Times About the author: David Priestland has studied Communism in all its forms for many years, in both Oxford and Moscow State Universities. He is University Lecturer in Modern History at Oxford and a Fellow of St. Edmund Hall, and the author of *Stalinism and the Politics of Mobilization*. *The Red Flag* was shortlisted for the Longman/History Today prize.

Cities Under Siege Stephen Graham 2011-11-01 Cities are the new battleground of our increasingly urban world. From the slums of the global South to the wealthy financial centers of the West, *Cities Under Siege* traces the spread of political violence through the sites, spaces, infrastructure and symbols of the world's rapidly expanding metropolitan areas. Drawing on a wealth of original research, Stephen Graham shows how Western militaries and security forces now perceive all urban terrain as a conflict zone inhabited by lurking

shadow enemies. Urban inhabitants have become targets that need to be continually tracked, scanned and controlled. Graham examines the transformation of Western armies into high-tech urban counter-insurgency forces. He looks at the militarization and surveillance of international borders, the use of 'security' concerns to suppress democratic dissent, and the enacting of legislation to suspend civilian law. In doing so, he reveals how the New Military Urbanism permeates the entire fabric of urban life, from subway and transport networks hardwired with high-tech 'command and control' systems to the insidious militarization of a popular culture corrupted by the all-pervasive discourse of 'terrorism.'
