A Chair for My Mother Vera B. Williams 2021-09-07 This classic and heartwarming picture book was written and illustrated by the celebrated Vera B. Williams and was named a Caldecott Honor Book by the American Library Association. "A tender knockout. It's rare to find much vitality, spontaneity, and depth of feeling in such a simple, young book."—Kirkus Reviews Vera Williams tells of a young girl who, along with her waitress mother, saves coins in a big jar in hopes that they can someday buy a new chair for their apartment, the kind of chair her mother deserves after being on her feet all day in the Blue Tile Diner. Into the jar also goes the money Grandma saves whenever she gets a bargain at the market. There hasn't been a comfortable place to sit in the apartment since a fire in their previous apartment burned everything to "charcoal and ashes." Friends and neighbors brought furniture to their new apartment downstairs, but no one brought anything big or soft or comfortable. Finally the jar is full, the coins are rolled, and in the book's crowning moment, mother, daughter, and Grandma search four different furniture stores, and after carefully trying several chairs, like Goldilocks, they find the chair they've been dreaming of at last. Vera Williams enhances this story about family, community, and the power of working together toward a common goal with her signature folk art-inspired paintings. A Chair for My Mother has sold more than a million copies and is an ideal choice for reading and sharing at home and in the classroom. "A superbly conceived picture book expressing the joyful spirit of a loving family."—The Horn Book Vera B. Williams's beloved picture book favorites include: "More More More," Said the Baby Amber Was Brave, Essie Was Smart A Chair for Always A Chair for My Mother Cherries and Cherry Pits Music, Music for Everyone Something Special for Me Stringbean's Trip to the Shining Sea Three Days on a River in a Red Canoe

The World in the Head Robert Cummins 2010-01-28 The World in the Head collects the best of Robert Cummins' papers on mental representation and psychological explanation. Running through these papers are a pair of themes: that explaining the mind requires functional analysis, not subsumption under "psychological laws", and that the propositional attitudes—belief, desire, intention—and their interactions, while real, are not the key to understanding the mind at a fundamental level. Taking these ideas seriously puts considerable strain on standard conceptions of rationality and reasoning, on truth-conditional semantics, and on our interpretation of experimental evidence concerning cognitive development, learning and the evolution of mental traits and processes. The temptation to read the structure of mental states and their interactions off the structure of human language is powerful and seductive, but has created a widening gap between what most philosophers and social scientists take for granted about the mind, and the framework we need to make sense what an accelerating biology and neuroscience are telling us about brains. The challenge for the philosophy of mind is to devise a framework that accommodates these developments. This is the underlying motivation for the papers in this collection.

Moll Flanders Illustrated Daniel Defoe 2021-01-22 "Moll Flanders is a novel by Daniel Defoe, first published in 1722. It purports to be the true account of the life of the eponymous Moll, detailing her exploits from birth until old age.By 1721, Defoe had become a recognised novelist, with the success of Robinson Crusoe in 1719. His political work was tapering off at this point, due to the fall of both Whig and Tory party leaders with whom he had been associated; Robert Walpole was beginning his rise, and Defoe was never fully at home with the Walpole group. Defoe's Whig views are nevertheless evident in the story of Moll, and the novel's full title gives some insight into this and the outline of the plot"

The Water Wars Cameron Stracher 2011-10-01 Welcome to a future where water is more precious than oil or gold... Hundreds of millions of people have already died, and millions more will soon fall-victims of disease, hunger, and dehydration. It is a time of drought and war. The rivers have dried up, the polar caps have melted, and drinkable water is now in the hands of the powerful few. There are fines for wasting it and prison sentences for exceeding the quotas. But Kai didn't seem to care about any of this. He stood in the open road drinking water from a plastic cup, then spilled the remaining drops into the dirt. He didn't go to school, and he traveled with armed guards. Kai claimed he knew a secret-something the government is keeping from us... And then he was gone. Vanished in the middle of the night. Was he kidnapped? Did he flee? Is he alive or dead? There are no clues, only questions. And no one can guess the lengths to which they will go to keep him silent. We have to find him-and the truth-before it is too late for all of us.
