Emily Fox-Seton Frances Hodgson Burnett 2021-10-21 Emily Fox-Seton is a well-bred but penniless lady who works for the selfish Lady Maria Bayne. At 34, she knows she is unlikely to marry, and her prospects are bleak. Despite that, she has a positive outlook and enjoys the simple pleasures of life. Her kindness, unselfishness and desire to make others happy attract the aging and wealthy Marquis Walderhurst. He sweeps her off her feet and they get married. Not long after, he travels to India, leaving Emily with child. But not everyone is happy for Emily.. Soon, her husband's former heir, Alec Osborn, arrives and attempts to regain what he believes is his birthright. Mysterious murder plots arise, putting Emily and her child in danger. Will she find her happy ever after? Set in the early 19th century, this Cinderella-like story is a

collection of two separate books, "The Making of a Marchioness" and its sequel "The Methods of Lady Walderhurst." Frances Eliza Hodgson Burnett (1849-1924) was born in Manchester, England, but emigrated to the United States after her father's death. She wrote stories for magazines to help her family financially, and would later write plays and novels. Her most famous works are 'A Little Princess' (1905) and 'The Secret Garden' (1911).

**The Making of a Marchioness** Frances Hodgson Burnett 2018-05-05 "The Making of a Marchioness" is a novel by Frances Hodgson Burnett. It was followed by a sequel, The Methods of Lady Walderhurst, but both have been subsequently published together, either under the original name "The Making of a Marchioness" or as "Emily Fox-Seton". Emily Fox-Seton is a young woman of good birth but no money who works as a companion and assistant for various members of the upper class. Her chief employer is Lady Maria Bayne, who is both very selfish and very funny, although she does come to care for Emily. In a "Cinderella-like" ending, Emily eventually marries a much older man, James, the Marquess of Walderhurst, thus herself

becoming a marchioness. In the sequel, originally "The Methods of Lady Walderhurst", Emily has Walderhurst's child, and his former heir, Alec Osborn, attempts to regain what he sees as his birthright.

**The Shuttle** Frances Hodgson Burnett 2017 This is decidedly Mrs. Burnett's biggest novel, and one that has created widespread comment from the readers of the Century Magazine, where it has been appearing in serial form. The plot is based on an international marriage between a rich American girl and a degenerate English nobleman. The wife is very unhappy, and finally her husband makes her break with her own family, but when her sister is grown up she comes to the rescue and takes things into her own hands. She is a splendid type of the modern American girl and a heroine to whom all hearts are offered. The character drawings are particularly life-like, and the whole story is handled with masterful skill, while the style has a literary finish that is exceptional in fiction.

**The Shuttle** Frances Hodgson Burnett 2021-02-18 No man knew when the Shuttle began its slow and heavy weaving from shore to shore, that it was held and guided by the great hand of Fate. Fate alone saw the meaning of the web it wove, the might of it, and its place in the making of a world's history. Men thought but little of either web or weaving, calling them by other names and lighter ones, for the time unconscious of the strength of the thread thrown across thousands of miles of leaping, heaving, grey or blue ocean. Fate and Life planned the weaving, and it seemed mere circumstance which guided the Shuttle to and fro between two worlds divided by a gulf broader and deeper than the thousands of miles of salt, fierce sea—the gulf of a bitter quarrel deepened by hatred and the shedding of brothers' blood. Between the two worlds of East and West there was no will to draw nearer. Each held apart. Those who had rebelled against that which their souls called tyranny, having struggled madly and shed blood in tearing themselves free, turned stern backs upon their unconquered enemies, broke all cords that

bound them to the past, flinging off ties of name, kinship and rank, beginning with fiercer disdain a new life. Those who, being rebelled against, found the rebels too passionate in their determination and too desperate in their defence of their strongholds to be less than unconquerable, sailed back haughtily to the world which seemed so far the greater power. Plunging into new battles, they added new conquests and splendour to their land, looking back with something of contempt to the half-savage West left to build its own civilisation without other aid than the strength of its own strong right hand and strong uncultured brain. But while the two worlds held apart, the Shuttle, weaving slowly in the great hand of Fate, drew them closer and held them firm, each of them all unknowing for many a year, that what had at first been mere threads of gossamer, was forming a web whose strength in time none could compute, whose severance could be accomplished but by tragedy and convulsion.

*The Making of a Marchioness & The Shuttle (2 Romance Novels)* Frances Hodgson Burnett 2022-05-25 Frances Hodgson Burnett worked on these two books simultaneously: *The Shuttle*, a longer and more complicated book; and *The Making of a Marchioness*, which she wrote in a few weeks and published to good reviews. It is about the rejuvenating effects of Americans and American money on a somewhat decadent English aristocracy. *The Making of a Marchioness* (1901) It was originally published in two parts: the first tells the fairy tale-like story of how our heroine, Emily Fox-Seton, became the Marchioness of Walderhurst. The second, originally titled *The Methods of Lady Walderhurst*, is a down-to-earth portrayal of the realities of Victorian marriage, with a bit of a Victorian sensation vibe to it. *The Shuttle* (1907) It was begun in 1900 but frequently abandoned while its author, Frances Hodgson Burnett, wrote several other books, including, most famously, *The Making of a Marchioness*. *The Shuttle* is about American heiresses marrying English aristocrats; by extension it is about the effect of American energy and dynamism rejuvenating a somewhat decadent English aristocracy: Rosalie Vanderpoel, the daughter of an American multimillionaire

marries an impoverished English baronet and goes to live in England. She all but loses contact with her family in America. Years later her younger sister Bettina, beautiful, intelligent and extremely rich, goes to England to find what has happened to her sister. Bettina, who is both beautiful and made of considerably stronger stuff than her sister, begins to restore both Rosalie's health and spirits and the building and grounds of Stornham Court in Nigel's absence. Bettina, as an attractive heiress, attracts the attention of the local gentry and re-integrates her sister into society, while also gaining the respect of the villagers by her insistence that repairs be done by local workers. Bettina also makes the acquaintance of another impoverished English nobleman, Lord Mount Dunstan, who has considerably more pride and spirit than Sir Nigel and has no intention of marrying an American heiress to restore his estate, but who is not well-respected in the neighbourhood due to his disreputable late father and brother. Mount Dunstan regains the respect of the neighbourhood due to a chance encounter with an American typewriter salesman on holiday, G. Seldon, and because he opens

his estate to workers afflicted by typhoid fever. When Sir Nigel returns home to discover Rosalie and Ughtred in improved health and spirits, the estate nearly restored, and Betty responsible for it all, he tries to conceal his ill-will but has never been particularly good at self-control. **Beyond the Secret Garden** Ann Thwaite 2020-08-06 The definitive and revealing biography of the author of *The Secret Garden*. Frances Hodgson Burnett's favourite theme in her fiction was the reversal of fortune, and she herself knew extremes of poverty and wealth. Born in Manchester in 1849, she emigrated with her family to Tennessee because of the financial problems caused by the cotton famine. From a young age she published her stories to help the family make ends meet. Only after she married did she publish *Little Lord Fauntleroy* that shot her into literary stardom. On the surface, Frances' life was extremely successful: hosting regular literary salons in her home and travelling frequently between properties in the UK and America. But behind the colourful personal and social life, she was a complex and contradictory character. She lost both parents by her twenty-first birthday, Henry James called her "the most heavenly of women" although avoided her;

prominent people admired her and there were many friendships as well as an ill-advised marriage to a much younger man that ended in heartache. Her success was punctuated by periods of depression, in one instance brought on by the tragic loss of her eldest son to consumption. Ann Thwaite creates a sympathetic but balanced and eye-opening biography of the woman who has enchanted numerous generations of children.

Though Dunstan village was cut off, by its misfortune, from its usual intercourse with its neighbours, in some mystic manner villages even at twenty miles' distance learned all it did and suffered, feared or hoped. It did not hope greatly, the rustic habit of mind tending towards a discouraged outlook, and cherishing the drama of impending calamity. As far as Yangford and Marling inmates of cottages and farmhouses were inclined to think it probable that Dunstan would be "swep away," and rumours of spreading death and disaster were popular. Tread, the advanced blacksmith at Stornham, having heard in his by-gone, better days of the Great Plague of London, was greatly in demand as a narrator of illuminating anecdotes at The Clock Inn. Among the parties gathered at the large houses Mount Dunstan himself was much talked of. If he had been a popular man, he might have become a sort of hero; as he was not popular, he was merely a subject for discussion. The fever-stricken patients had been carried in carts to the Mount and given beds in the ballroom, which had been made into a temporary ward. Nurses and supplies had been sent for from London, and two energetic young doctors had taken the place of old Dr. Fenwick, who had been frightened and overworked into an attack of bronchitis which confined him to his bed. Where the money came from, which must be spent every day under such circumstances, it was difficult to say. To the simply conservative of mind, the idea of filling one's house with dirty East End hop pickers infected with typhoid seemed too radical. Surely he could have done something less extraordinary. Would everybody be expected to turn their houses into hospitals in case of village epidemics, now that he had established...

In the early twentieth century, America's nouveau riche families began to marry off their daughters to British aristocrats, and many of these matches were doomed before they even began by intractable cultural differences. When Betty sets off across the pond to rescue her sister Rosalie from one such ill-fated match,

the novel really kicks into high gear.

But while the two worlds held apart,

the Shuttle, weaving slowly in the great hand of Fate, drew them closer and held them firm, each of them all unknowing for many a year, that what had at first been mere threads of gossamer, was forming a web whose strength in time none could compute, whose severance could be accomplished but by tragedy and convulsion. The weaving was but in its early and slow-moving years when this story opens. Steamers crossed and recrossed the Atlantic, but they accomplished the journey at leisure and with heavy rollings and all such discomforts as small craft can afford. Their staterooms and decks were not crowded with people to whom the voyage was a mere incident—in many cases a yearly one. "A crossing" in those days was an event. It was planned seriously, long thought of, discussed and re-discussed, with and among the various members of the family to which the voyager belonged. A certain boldness, bordering on recklessness, was almost to be presupposed in the individual who, turning his back upon New York, Philadelphia, Boston, and like cities, turned his face towards "Europe." In those days when the Shuttle wove at leisure, a man did not lightly run over to London, or Paris, or Berlin, he gravely went to "Europe." The journey being likely to be made once in a lifetime, the traveller's intention was to see as much as possible, to visit as many cities, cathedrals, ruins, galleries, as his time and purse would allow. People who could speak with any degree of familiarity of Hyde Park, the Champs Elysees, the Pincio, had gained a certain dignity. The ability to touch with an intimate bearing upon such localities was a *raison de plus* for being asked out to tea or to dinner. To possess photographs and relics was to be of interest, to have seen European celebrities even at a distance, to have wandered about the outside of poets' gardens and philosophers' houses, was to be entitled to respect. The period was a far cry from the time when the Shuttle, having shot to and fro, faster and faster, week by week, month by month, weaving new threads into its web each year, has woven warp and woof until they bind far shore to shore. It was in comparatively early days that

the first thread we follow was woven into the web.

**Silent Stars** Jeanine Basinger 2012-10-17 From one of America's most renowned film scholars: a revelatory, perceptive, and highly readable look at the greatest silent film stars -- not those few who are fully appreciated and understood, like Chaplin, Keaton, Gish, and Garbo, but those who have been misperceived, unfairly dismissed, or forgotten. Here is Valentino, "the Sheik," who was hardly the effeminate lounge lizard he's been branded as; Mary Pickford, who couldn't have been further from the adorable little creature with golden ringlets that was her film persona; Marion Davies, unfairly pilloried in *Citizen Kane*; the original "Phantom" and "Hunchback," Lon Chaney; the beautiful Talmadge sisters, Norma and Constance. Here are the great divas, Pola Negri and Gloria Swanson; the great flappers, Colleen Moore and Clara Bow; the great cowboys, William S. Hart and Tom Mix; and the great lover, John Gilbert. Here, too, is the quintessential slapstick comedienne, Mabel Normand, with her Keystone Kops; the quintessential all-American hero, Douglas Fairbanks; and, of course, the quintessential all-American dog, Rin-Tin-Tin. This is the first book to anatomize the major silent players, reconstruct their careers, and give us a sense of what those films, those stars, and that Hollywood were all about. An absolutely essential text for anyone seriously interested in movies, and, with more than three hundred photographs, as much a treat to look at as it is to read.
