The Last Harvest Kim Liggett 2017-01-10 Kim Liggett draws on her childhood during the Satanic Panic for a chilling tale of magic in The Last Harvest. "I plead the blood." Those were the last words seventeen-year-old golden boy quarterback Clay Tate heard rattling from his dad's throat when he discovered him dying on the barn floor of the Neely cattle ranch, clutching a crucifix to his chest. Now, on the first anniversary of the Midland, Oklahoma, slaughter, the whole town's looking at Clay like he might be next to go over the edge. Clay wants to forget the past, but the sons and daughters of the Preservation Society—a group of prominent farmers his dad accused of devil worship—won't leave him alone. Including Ali, his longtime crush, who suddenly wants to reignite their romance after a year of silence, and hated rival Tyler Neely, who's behaving like they're old friends. Even as Clay tries to reassure himself, creepy glances turn to sinister stares and strange coincidences build to gruesome rituals—but when he can never prove that any of it happened, Clay worries he might be following his dad down the path to insanity...or that something far more terrifying lies in wait around the corner.

When and Where I Enter Paula J. Giddings 2009-10-06 "History at its best—clear, intelligent, moving. Paula Giddings has written a book as priceless as its subject"—Toni Morrison Acclaimed by writers Toni Morrison and Maya Angelou, Paula Giddings's *When and Where I Enter* is not only an eloquent testament to the unsung contributions of individual women to our nation, but to the collective activism which elevated the race and women's movements that define our times. From Ida B. Wells to the first black Presidential candidate, Shirley Chisholm; from the anti-lynching movement to the struggle for suffrage and equal protection under the law; Giddings tells the stories of black women who transcended the dual discrimination of race and gender—and whose legacy inspires our own generation. Forty years after the passing of the Voting Rights Act, when phrases like "affirmative action" and "wrongful imprisonment" are rallying cries, Giddings words resonate now more than ever.

The Language of Jokes Delia Chiaro 2006-12-05 In this highly readable and thought-provoking book, Delia Chiaro explores the pragmatics of word play, using frameworks normally adopted in descriptive linguistics. Using examples from personally recorded conversations, she examines the structure of jokes, quips, riddles and asides. Chiaro explores degrees of conformity to and deviation from established conventions; the 'tellability' of jokes, and the interpretative role of the listener; the creative use of puns, word play and discourse. The emphasis in her analysis is on sociocultural contexts for the production and reception of jokes, and she examines the extent to which jokes are both universal in their appeal, and specific to a particular culture.

Religion of White Rage Finley Stephen C. Finley 2020-09-21 Critically analyses the historical, cultural and political dimensions of white religious rage in America, past and present This book sheds light on the phenomenon of white rage, and maps out the uneasy relationship between white anxiety, religious fervour, American identity and perceived black racial progress. Contributors to the volume examine the sociological construct of the "e;white labourer"; whose concerns and beliefs can be understood as religious in foundation, and uncover that white religious fervor correlates to notions of perceived white loss and perceived black progress. In discussions ranging from the Constitution to the Charlottesville riots to the evangelical community's uncritical support for Trump, the authors of this collection argue that it is not economics but religion and race that stand as the primary motivating factors for the rise of white rage and white supremacist sentiment in the United States.

365 James Robertson 2014-11-06 365 is James Robertson's innovative collection of 365 stories, each 365 words long. In 2013, James Robertson wrote a story every day. Each was exactly 365 words long. A year later, on a daily basis, the stories were published on the Five Dials website. Now the 365 stories are gathered together in one volume. Some draw on elements of ancient myth and legend, others are outtakes from Scottish history and folklore; there are squibs and satires, songs and ballads in disguise, fairytales, stories inspired by dreams or in the form of interviews, and personal memories and observations. Underpinning all of them are vital questions: Who are we? What are we doing here? What happens next? 'Wow. James Robertson wrote a 365-word short story each day in 2013. They'll be posted throughout 2014' Ian Rankin, via Twitter 'A great storyteller' The Times 'One of Britain's best contemporary novelists' Irvine Welsh, Guardian James Robertson is the author of five novels, *The Professor of Truth*, *And the Land Lay Still*, *The Testament of Gideon Mack*, *Joseph Knight* and *The Fanatic*. *The Testament of Gideon Mack* was longlisted for the 2006 Man Booker Prize and selected for Richard and Judy's Book Club the following year. *Joseph Knight* was the Saltire Scottish Book of the Year in 2003 and *And the Land Lay Still* was recipient of the same prize in 2010.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would

Taboo in Advertising Elsa Simões Lucas Freitas 2008-01 Taboos are much more than just a synonym of 'forbidden'. Proof of the concept's complexity can be found in the way ads often try to hide the taboo inherent to their products or, conversely, in the way certain taboo readings are foregrounded on purpose in other ads. This volume shows why and how that happens, using print and television ads to exemplify (a) the elaborate strategies used by ads for certain products to cleverly hide the taboo inherent to them, and (b) the deliberate recourse to taboo references in ads for products that do not present any taboo connotation. The linguistic analysis undertaken takes into account the different modes (verbal language, music, sound effects, moving and static images) that convey meaning in ads. Taboo is very often conveyed or disguised through one of the channels while the others play the opposite role, thus achieving a balance that prevents the ad from being too obscure to be understood or too daring for the general public to accept it. For this comprehensive approach, concepts are drawn from different disciplines: textual and semiotic analysis from linguistics, theories of taboo from anthropology, and background to advertising from media studies.

Stokely Speaks Stokely Carmichael (Kwame Ture) 2007-02-01 In the speeches and articles collected in this book, the black activist, organizer, and freedom fighter Stokely Carmichael traces the dramatic changes in his own consciousness and that of black Americans that took place during the evolving movements of Civil Rights, Black Power, and Pan-Africanism. Unique in his belief that the destiny of African Americans could not be separated from that of oppressed people the world over, Carmichael's Black Power principles insisted that blacks resist white brainwashing and redefine themselves. He was concerned not only with racism and exploitation, but with cultural integrity and the colonization of Africans in America. In these essays on racism, Black Power, the pitfalls of conventional liberalism, and solidarity with the oppressed masses and freedom fighters of all races and creeds, Carmichael addresses questions that still confront the black world and points to a need for an ideology of black and African liberation, unification, and transformation.

Destination Normandy G. H. Bennett 2009-04-20 A cross-section of the American experience on D-Day Unique perspective from the regimental level that also integrates strategic and tactical considerations Stories of largely forgotten acts of valor G. H. Bennett collects oral histories from the soldiers of three American regiments and weaves them into an intimate account of the D-Day invasion of June 6, 1944. Widely scattered during its drop into Normandy, the 507th Parachute Infantry Regiment (82nd Airborne Division) stopped the advance of an SS division. The untested 116th Infantry Regiment (29th Infantry Division) landed on bloody Omaha Beach, where it suffered more casualties than any other regiment that day. Meanwhile, the 22nd Infantry Regiment (4th Infantry Division) easily waded ashore on Utah Beach but faced savage fighting as it moved inland.

Islamist Terrorism in Europe Petter Nesser 2018-09-01 Europe is still facing an increase in terrorist plotting. This has led to growing security concerns over the fallout of the Syrian conflict, and the sizeable contingents of battle-hardened European foreign fighters, who are seeking to return home. This book provides a comprehensive account of the rise of jihadist militancy in Europe and offers a detailed background for understanding the current and future threat. Based on a wide range of new primary sources, it traces the phenomenon back to the late 1980s, and the formation of jihadist support networks in Europe in the early 1990s. Combining analytical rigor with empirical richness, Petter Nesser offers a comprehensive account of patterns of terrorist cell formation and plots between 1995 and 2017. In contrast to existing research which has emphasized social explanations, failed immigration and homegrown radicalism, this book highlights the transnational aspects. It shows how jihadi terrorism in Europe is intrinsically linked to and reflects the ideological agendas of armed

organizations in conflict zones, and how entrepreneurial jihad-veterans facilitate such trans-nationalization of militancy.

Creating the Future of Health Robert Lampard 2021-02-15 Creating the Future of Health is the fascinating story of the first fifty years of the Cumming School of Medicine at the University of Calgary. Founded at the recommendation of the Royal Commission on Health Services in 1964 the Cumming School has, from the very beginning, focused on innovation and excellence in health education. With a pioneering focus on novel, responsive and systems-based approaches, it was one of the first sites to pilot multi-year training programs in family medicine and remains one of only two three-year medical schools in North America. Since the first class in 1973, over 5000 doctors have graduated from the Cumming School of Medicine. Centres of clinical excellences have been created at four affiliated teaching hospitals and the school now boasts seven medical research institutes at the Foothills/Alberta Children's Campus, the largest medical complex in the province. Drawing on interviews with key players and extensive research into documents and primary material, *Creating the Future of Health* traces the history of the school through the leadership of its Deans. This is a story of perseverance through fiscal turbulence, sweeping changes to health care and health care education, and changing ideas of what health services are and what they should do. It is a story of triumph, of innovation, and of the Calgary tenacious spirit that thrives to this day at the Cumming School of Medicine

Why, as a Muslim, I Defend Liberty Mustafa Akyol 2021-09-28 Islam, the second largest religion in the world, has several authoritarian interpretations today that defy human freedom—by executing “apostates” or “blasphemers,” imposing religious practices, or discriminating against women or minorities. In *Why, as a Muslim, I Support Liberty*, Mustafa Akyol offers a bold critique of this trouble, by frankly acknowledging its roots in the religious tradition. But Akyol also shows that Islam has “seeds of freedom” as well—in the Qur'an, the life of the Prophet Muhammad, and the complex history of the Islamic civilization. It is past time, he argues, to grow those seeds into maturity, and reinterpret Islamic law and politics under the Qur'anic maxim, “No compulsion in religion.” Akyol shows that the major reinterpretation Islam needs now is similar to the transformation that began in Western Christianity back in the 17th century, with the groundbreaking ideas of classical liberal thinkers such as John Locke. The author goes back and forth between classical liberalism and the Islamic tradition, to excavate little-noticed parallels, first highlighted by the “Islamic liberals” of the late Ottoman Empire, unknown to many Muslims and non-Muslims today. In short chapters, Akyol digs into big questions. Why do Muslims need to “reform” the Sharia? But is there something to “revive” in the Sharia as well? Should Muslims really glorify “conquest,” or rather believe in social contract? Is capitalism really alien to Islam, which has a rich heritage of free markets and civil society? Finally, he addresses a suspicion common among Muslims today: What if liberty is a mere cover used by Western powers to advance their imperialist schemes? With personal stories, historical anecdotes, theological insights, and a very accessible prose, this is the little big book on the intersection of Islam and liberty.

American Buffalo David Mamet 2014-07-22 *American Buffalo*, which won both the Drama Critics Circle Award for the best American play and the Obie Award, is considered a classic of the American theater. Newsweek acclaimed Mamet as the “hot young American playwright . . . someone to watch.” The New York Times exclaimed in admiration: “The man can write!” Other critics called the play “a sizzler,” “super,” and “dynamite.” Now from Gregory Mosher, the producer of the original stage production, comes a stunning screen adaptation, directed by Michael Corrente and starring Dustin Hoffman, Dennis Franz, and Sean Nelson. A classic tragedy, *American Buffalo* is the story of three men struggling in the pursuit of their distorted vision of the American Dream. By turns touching and cynical, poignant and violent, *American Buffalo* is a piercing story of how people can be corrupted into betraying their ideals and those they love.

Losing the Long Game Philip H. Gordon 2020-10-06 The definitive account of how regime change in the Middle East has proven so tempting to American policymakers for decades—and why it always seems to go wrong. “Must reading—by someone who saw it first-hand—for all interested in America’s foreign policy and its place in the world.” —Robin Wright Since the end of World War II, the United States has set out to oust governments in the Middle East on an average of once per decade—in places as diverse as Iran, Iraq, Afghanistan (twice), Egypt, Libya, and Syria. The reasons for these interventions have also been extremely diverse, and the methods by which the United States pursued regime change have likewise been highly varied, ranging from diplomatic pressure alone to outright military invasion and occupation. What is common to all the operations, however, is that they failed to achieve their ultimate goals, produced a range of unintended and even catastrophic consequences, carried heavy financial and human costs, and in many cases left the countries in question worse off than they were before. Philip H. Gordon's *Losing the Long Game* is a thorough and riveting look at the U.S. experience with regime change over the past seventy years, and an insider's view on U.S. policymaking in the region at the highest levels. It is the story of repeated U.S. interventions in the region that always started out with high hopes and often the best of intentions, but never turned out well. No future discussion of U.S. policy in the Middle East will be complete without taking into account the lessons of the past, especially at a time of intense domestic polarization and reckoning with America's standing in world.

Moonlight on Linoleum Terry Helwig 2011-10-04 Now in paperback—in the bestselling tradition of *The Glass Castle* and *The Liar's Club* comes the captivating memoir of a young girl forced by her mother's instability to care for her siblings. Even if others abandon you, you must never abandon yourself. This simple truth became Terry Helwig's lifeline as she was forced to grow up too soon. Terry grew up the oldest of six girls in the big-sky country of the American Southwest, where she attended twelve schools in eleven years. Helwig's stepfather Davy, a good-hearted and loving man, proudly purchased a mobile home to enable his family to move more easily from one oil town to another, where Davy eked out a living in the oil fields. Terry's mother, Carola Jean, a wild rose whose love often pierced those who tried to claim her, had little interest in the confines of home and motherhood. In Davy's absence, she sought companionship in local watering holes—a pastime she dubbed “visiting Timbuktu.” She repeatedly left Terry in charge of the household and her five younger sisters. Despite Carola Jean's genuine attempts to “better herself,” her life spiraled ever downward as Terry struggled to keep the family whole. In the midst of transience and upheaval, Terry and her sisters forged an uncommon bond of sisterhood that withstood the erosion of Davy and Carola Jean's marriage. But ultimately, to keep her own dreams alive, Terry had to decide when to hold on to what she loved and when to let go. Unflinching in its portrayal, yet told with humor and compassion, Terry Helwig's luminous memoir, *Moonlight on Linoleum*, explores a family's inner and outer landscapes of hope, despair, and redemption. It will make you laugh, cry, and hunger for more.

Even from a young age, Sarah found ways of shirking her own hated identity – whether by stealing someone else's or lying about her own. She changed her name, claimed to be a great outdoorsman, and solicited donations for her favorite charity – which turned out to be, in fact, her. Out With It Katherine Preston 2014-03-04 "A fresh, engaging account of a young woman's journey, first to find a cure for a lifelong struggle with stuttering, and ultimately to embrace the voice that has defined her character. Imagine this: you're a beautiful, blonde, stylish, highly intelligent, gregarious young woman curious about the world with a lot to say about it. But every time you open your

mouth, a stutter comes out. In order to do something as simple as say your name, you must physically force the word. Which doesn't always look so pretty. At the age of seven, Katherine Preston learned that she was a stutterer. From that point on she battled the fear of communicating with the world by denying that her speech was an issue. Finally, a humiliating experience inspired her to take an unusual action. In *Out With It* she tells the hilariously heartbreaking yet ultimately uplifting story of her year spent traveling around the United States to interview more than 100 stutterers, speech therapists, and researchers. What begins as a search for a cure becomes a journey that debunks the misconceptions that shroud the condition and a love story that changes her perspective on normality. *Out With It* offers a fresh perspective on our obsession with physical perfection and an exploration of what our voice, and our vulnerabilities, means to each of us. It sheds light on an ancient condition that afflicts approximately 4 million in the U.S. and 60 million people worldwide. In addition to experts, Katherine interviewed writers, actresses, musicians, socialworkers, psychologists, farmers, and financiers men and women of all walks of life who were working to overcome their speech problems. Combining memoir and investigative journalism, *Out With It* is an incredibly compelling, informative and heartwarming memoir about understanding and embracing one's self and the voice within"--

The Language of Jokes in the Digital Age Delia Chiaro 2017-11-23 In this accessible book, Delia Chiaro provides a fresh overview of the language of jokes in a globalized and digitalized world. The book shows how, while on the one hand the lingua-cultural nuts and bolts of jokes have remained unchanged over time, on the other, the time-space compression brought about by modern technology has generated new settings and new ways of joking and playing with language. *The Language of Jokes in the Digital Age* covers a wide range of settings from social networks, e-mails and memes, to more traditional fields of film and TV (especially sitcoms and game shows) and advertising. Chiaro's consideration of the increasingly virtual context of jokes delights with both up-to-date examples and frequent reference to the most central theories of comedy. This lively book will be essential reading for any student or researcher working in the area of language and humour and will be of interest to those in language and media and sociolinguistics.
