Law, laity and solidarities Pauline Stafford 2020-01-03 The primary focus of this collection by leading medieval historians is the laity, in particular the ideas and ideals of lay people. The contributors explore lay attitudes as expressed in legal cases, charters, chronicles and collective activities. Highlights the centrality of kinship, whilst stressing its limitations as an all purpose social bond. Ranges chronologically and geographically from the seventh century to the eve of the Reformation, from Western Britain to papal and urban Italy, from Carolingian dynastic politics to the decline of medieval pilgrimage in the sixteenth century, and from the courts of twelfth-century France to the fifteenth-century wards of London.

Queen Emma and Queen Edith Pauline Stafford 2001-06-08 Through detailed study of these women the author demonstrates the integral place of royal queens in the rule of the English kingdom and in the process of unification by which England was made.

Queens, Concubines, and Dowagers Pauline Stafford 1998 'Between the sixth and eleventh centuries, many women exercised a profound influence on the politics of Western Europe. The histories of Frankia, Italy, and England would have been different had it not been for queens such as Brunhild, Judith, Angelberga, Emma and others. This is a composite biography of the early queens and royal bedfellows and provides a fascinating picture of their political importance and the many factors that affected their personal lives. Woven with the political story of these women is the story of courtships, weddings, dowries; the anxieties of confinements, sterility and infant mortality; the tense relationships with in-laws; and the peaceful, if often involuntary, religious retirement of widowhood. A fascinating study of a period in world history that requires more illumination. Maps and charts are excellent. Highly recommended.' Genealogical Library Journal

Charms and Charming in Europe J. Roper 2004-11-12 Historical records of charms, the verbal element of vernacular magic, date back at least as far as the late middle ages, and charming has continued to be practiced until recently in most parts of Europe. And yet, the topic has received only scattered scholarly attention to date. By bringing together many of the leading authorities on charms and charming from Europe and North America, this book aims to rectify this neglect, and by presenting discussions covering a variety of periods and of locations - from Finland to France, and from Hungary to England - it forms an essential reader on the topic.

Body Piercing and Tattooing Robert Z. Cohen 2013-07-15 With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood.

The Politics of Memory and Identity in Carolingian Royal Diplomas Geoffrey Koziol 2012 Based upon a 'performative' interpretation of royal charters, The Politics of Memory and Identity offers a new and surprising narrative of West Frankish history from the death of Louis the Pious in 840 to the demise of the Carolingian dynasty in 987. The key is a carefully contextualised analysis of the circumstances in which kings issued charters and an alert examination of the charters' verbal and visual semiotics. For which monasteries and cathedrals did kings issue diplomas and under what conditions? Who were the patrons who interceded for the recipients of diplomas and what titles were they given? Which kings were named as predecessors and which were omitted? Such clues allow us to recover the meaning of events whose significance was concealed by chroniclers, and to find unsuspected continuities in 150 years of West Frankish politics. They allow us to see a ruthless exercise of power in the use of forgeries and a commitment to political reform in the reform of monasteries. They reveal the long shadow cast by the reign of Charles the Bald in West Frankish history and the importance of a handful of monasteries as 'sites of memory'. Above all, an intertextual reading of diplomas shows that political leaders in the kingdom made decisions based on policy, where the policy was articulated in terms of lessons drawn from their understanding of the past, and diplomas were the records that conveyed the lessons.

Herman Boerhaave (1668-1738) Rina Knoeff 2002 Herman Boerhaave, holder of three professorships in medicine, botany and chemistry at the University of Leiden, was one of the most important and famous medical teacher in Europe. Boerhaave was also known as a very religious man. Historians of science and medicine have stressed the mechanical aspects of his medicine. Boerhaave's natural philosophy - his chemistry and alchemy as

well as their uses in medicine - and methodology are all rooted in his Calvinism. In particular, Boerhaave's ideas on the divine nature of fire, the chemical theory of menstrua and the idea of seminal principles demonstrate that Boerhaave presented a Calvinist picture of the world.

The Holy Greyhound Jean-Claude Schmidt 2009-04-16 The legend of a dog which is unjustly killed by its master in error, after it has defended his child from attack by a snake or wolf, appears in several popular cultures of Indo-European origin. This book concentrates on one local manifestation of the legend: a cult among the peasants of the Dombes, north of Lyons, who brought their sick child to the grave of 'Saint Guinefort', the martyred greyhound, for preservation from disease. Providing a rare access to the underlying cultural traditions of Europe, all too often submerged in the survivals of literate culture, this book will be welcomed by a wide range of historians and anthropologists.

Gender and Historiography Janet L. Nelson 2012 The chapters in this volume celebrate the work of Pauline Stafford, highlighting the ways in which it has advanced research in the fields of both Anglo-Saxon history and the history of medieval women and gender. Ranging across the period, and over much of the old Carolingian world as well as Anglo-Saxon England, they deal with such questions as the nature of kingship and queenship, fatherhood, elite gender relations, the transmission of property, the participation of women in lordship, slavery and warfare, and the nature of assemblies. Gender and historiography presents the fruits of groundbreaking research, inspired by Pauline Stafford's own interests over a long and influential career.

Kingship, Legislation and Power in Anglo-Saxon England Gale R. Owen-Crocker 2013 The relationship between Anglo-Saxon kingship, law, and the functioning of power is explored via a number of different angles. *Charles II* Osmund Airy 2007-09 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank shects for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water. -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing. -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of allly flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Ottonian Queenship Simon MacLean 2017-03-30 The kings and emperors of the Ottonian dynasty which dominated Continental Europe in the tenth and early eleventh centuries are generally regarded as the founders of medieval Germany. The queens of the dynasty were also very powerful, among the most powerful of the entire Middle Ages. Ottonian Queenship offers the first full study in English of the surviving sources for Ottonian queenship. It makes original arguments about the nature and origins ofqueenly power, interpreting it as a product of the particular dynamics of European politics in the decades after the collapse of the Carolingian Empire in 888. By situating Ottonian queenship as a feature in broader landscape, it guides readers through the intricacies of European history at a crucial moment in its making.

In the Cage Henry James 2014-04-15 In the Cage is a novella by Henry James, first published in 1898. This story centres on an unnamed London telegraphist. She deciphers clues to her clients' personal lives from the often cryptic telegrams they submit to her as she sits in the "cage" at the post office. Sensitive and intelligent, the telegraphist eventually finds out more than she may want to know.

Anglo-Saxon Wills Dorothy Whitelock 2011-11-24 This 1930 volume contains the original texts of the great majority of surviving Anglo-Saxon wills drawn up in the tenth and eleventh centuries. They are of special interest for the light they cast on the connections of those who made the wills, and the ways in which the testators managed the disposition of their possessions.
